

# The Îles de la Madeleine, a land of charm and beauty

The archipelago of the Îles de la Madeleine is located in the middle of the Gulf of St. Lawrence, 215 km (130 mi.) from the Gaspé Peninsula, 105 km (65 mi.) from Prince Edward Island and 95 km (60 km) from Cape Breton Island, as the crow flies. Shaped like an extended fishhook, the Islands stretch over a distance of 65 km (40 mi.) in a southwest-northeasterly direction. The Islanders live in the Atlantic Time Zone, one hour ahead of mainland Québec.

## THE ISLANDS

The archipelago is made up of about a dozen islands, six of which are linked by narrow sand dunes. From north to south, the islands are: Grande-Entrée, Grosse-Île, Île-aux-Loups, Havre-aux-Maisons, Cap-aux-Meules and Havre-Aubert. Two other islands of a significant size are part of the archipelago as well: Entry Island, which is inhabited and located 10 km (6 mi.) east of Havre-Aubert, and Brion Island, an uninhabited island lying 16 km (10 mi.) north of Grosse-Île. Since January 2002, the Islands have been grouped into a single municipality, the Municipality of the Îles-de-la-Madeleine, which covers a total area of 202 km<sup>2</sup> (78 sq. mi.).

## THE ART OF LIVING IN THE ISLANDS

Culture is particularly important in the Islands. Numerous studios, galleries and boutiques open a door onto creative inspiration. Be forewarned, however: you won't be able to resist the temptation to fill your bags with local handcrafted souvenirs!

As far as the culinary arts are concerned, freshly caught local seafood takes pride of place, including lobster, which is available as of May, and snow crab, which is fished as of April. Pied-de-Vent cheese, marinated smoked herring and delicatessen meats are some of the other gourmet delicacies on offer. To get a taste of all the flavours of the region, look for products labelled "Le Bon goût frais des Îles" ("delicious and fresh from the Islands").

## SEA AND WIND

While the Islands are famous for the baby seals born every March on the ice floes, most visitors enjoy this corner of paradise in the summer when the water is perfect for swimming, with water temperatures reaching over 20°C (68°F) in August. The fine-sand beaches, which extend as far as the eye can see, are also ideal for sunning or strolling.

Sculpted by the wind and the sea, the Islands' red cliffs are dotted with caves, sea arches and mysterious nooks and crannies. Explore them in a sea kayak or even in a wetsuit accompanied by an experienced guide from La Salicorne (formerly Club Vacances "Les Îles"), for example. Sea excursions also offer the opportunity to observe seals or visit Brion Island or Rocher-aux-Oiseaux (Bird Rock), both of which are sanctuaries for hundreds of species of seabirds every year.

On the Islands, the wind, like the sea, is incorporated into recreational activities. Adventure companies introduce visitors to the joys of wind sports in complete safety.

## HOW TO GET THERE

There are three ways to get to the Islands:

**By plane:** Several airlines offer daily flights to the Îles de la Madeleine, departing from Montréal, Québec City and Gaspé. Flight time can vary from one to four hours depending on the departure city and the number of en-route stops. The Îles de la Madeleine Airport (YGR) is located on Havre-aux-Maisons Island, less than 15 km (9 mi.) from the central island of Cap-aux-Meules.

**By boat:** CTMA offers weekly cruises for up to 440 passengers in cabins between Montréal, Québec City, Chandler (Gaspésie) and the Îles de la Madeleine. The ship can also carry cars and motorcoaches. This service is available from June to September.

**By car:** To get to the Îles de la Madeleine by car, you must drive to Souris (PEI) and then take the ferry. The daily crossing takes five hours. Note that this service is not available in February and March.
