

THE LIGHTHOUSE TRAIL

Including Montréal and Québec City, Bas-Saint-Laurent, Gaspésie and Côte-Nord – Manicouagan

12 days, 11 nights

Journey to Québec maritime to discover the [lighthouses of the St. Lawrence](#), proud guardians of our maritime heritage. You will find them on isolated rocky capes or towering in the middle of villages, abandoned to harsh weather or protected by the very ones they used to watch over. Of the more than 40 lighthouses in Québec maritime, about half are open to the public. Given new life as museums, inns or cafés, they provide opportunities for visitors to discover the region's history and architecture.

The following itinerary is provided as an example only. Several alternatives are available, depending on the needs of your clients. For further information, please contact Le Québec maritime.
